BATTEN SCONCE

Description

The Batten sconce reimagines the structural stabilizers of traditional sailcloth through a series of vertical brass stiffeners embodying the centuries-old lineage of maritime reinforcement. The fixture features a framework of heavy-gauge brass ribs and rings, housing the robust glass cylinder that mimics grandiose rigging curvature. This skeletal silhouette ultimately gives way to a soft, 360-degree luminescence, providing an inviting and steadfast glow to the surrounding space.
