DAVY SCONCE

Description

Suspended with the utility of a mining lantern, the Davy sconce echoes the rugged profile of its namesake industrial-era safety lamps. Crafted from heavy-gauge steel, twin collars bind an elongated, protective, yet unobstructive cage to an inner perforated shield and glass cylinder, showcasing the lamp at its core. The patinated steel finish gives way to glimpses of raw steel, translating the character of a historic lifeline into a refined architectural statement of enduring integrity.

Finish Options

Aged Steel

Glass Options

Clear

Dimensions (approx.)

Overall Height: 23.5"
